EXPERIENCE

Katalyst Technologies — Senior Web Developer

March 2018 - PRESENT

- I single-handedly conceptualized and designed WebApps prototype utilizing Ux/UI frameworks such as Figma, Pen Pots, Adobe Illustrator.
- Contributed to MobileApp Development for a 29% increase in E-commerce sales.
- Trained over 50 staff members on inner Website functions.
- Built responsive websites using HTML, CSS, JavaScript, WordPress, Magento and modern front-end technologies VueJs from prototypes I designed.

ANBE Nig — Senior Web Developer/ IT Specialist

July 2018 - present

- Provided Front-end website development using WordPress & Vuejs.
- Determined coding requirement for site creation including e-commerce capability, Security and specialized scripts.
- Conducted testing and review for site design for responsiveness, clarity and effectiveness.

SprnyxMulti — Junior Web Developer

July 2018 - September 2019

- Assisted a team of developers with troubleshooting and User sampling prior to deployment.
- Established presentation consistency across Chrome, Safari and FireFox among other common browser interfaces.
